Work Experience

Ncell (May 2024- July 2024)

Technical business Analyst Internship

- ♦ Analysing Data
- ♦ Collaborating with Teams
- ♦ Led a digitalizing project solely

I am currently in my 8th semester pursuing a degree in Computer Science Engineering, having completed all my academic learning credits. I am now seeking an internship opportunity to gain practical, hands-on experience and apply my theoretical knowledge to real-world projects. Throughout my coursework, I have built a foundation in various programming languages, computer architecture, computer networks, operating systems, compilation techniques, and database systems.

I am eager to gain practical experience in professional environments and contribute to meaningful projects. I look forward to learning from industry experts and strengthening my technical and problem-solving skills. I am open to working across different domains and, as a fast learner, I am confident in my ability to quickly adapt to new challenges and contribute to the company's growth.

Expertise

- ♦ Management Skills
- ♦ Creativity
- ♦ Critical Thinking
- ♦ Leadership
